CITY OF DANVILLE, VIRGINIA, DEPARTMENT OF POWER & LIGHT Specification #E08-1

Jobsite Delivery of Packaged Materials

(Revised 10/16/12)

This specification covers the requirements for vendors seeking to provide a complete package of distribution and/or transmission material items for line construction projects, material delivery requirements, and the secure storage of materials at delivery.

The successful bidder must provide verification that they have performed this service in Virginia within the past 12 months. References are to be provided and the City of Danville reserves the right to contact said references.

Secure Storage Containers or Mobile Enclosed Storage Trailer shall be provide by the successful bidder and shall comply with the following:

A - Storage Containers:

- Containers shall be of all steel construction
- Containers shall have min. dimensions of 10 ft. in width by 25 ft. in length
- Containers shall have double doors at each end
- Container doors shall be equipped with the Locking Provisions.
- Containers shall have ground level accessibility
- Vendor shall specify number of containers required to house materials.
- Containers shall remain on-site until the project is complete

Or

B - Mobile Enclosed Storage Trailer:

- Storage trailer construction shall be: steel frame, aluminum sides & top and wood or aluminum floor.
- Storage trailer shall have min. dimensions of 8ft. in width by 48 ft. in length
- Storage trailer shall have double doors at one end.
- Storage trailer doors shall be equipped with the Locking Provisions.
- Storage trailer be equipped with temporary shelving or individual material bins.
 Shelving or bins shall include proper labeling, identifying the qty, mfg part no, and description of materials.
- Storage trailer be provided with temporary interior lighting.
- Storage trailer be provided with portable OSHA compliant rolling ladder/steps for access.

(ex: U-line Model #H-2013 or Cotterman #5TA18A3E10B8C50P6)

- Vendor shall specify number of storage trailers required to house materials.
- Storage trailer shall remain on-site until the project is complete.

The successful bidder shall coordinate all material deliveries including:

- Coordinating the delivery of all materials designated for the project(s) to the specified jobsite location(s) as designated by the Division of Power & Light.
- Providing material availability reporting on a weekly basis to ensure project will be completed on schedule
- Provide a sample of the Material Availability Report in the proposal package.
- If **Storage Containers** are provided, specify material delivery by curtain side trailer to ensure off loading from the side at the jobsite.
- If Mobile Enclosed Storage Trailer is provided, materials can be pre-loaded at vendor's facilities prior to delivery to job site.

- Provide a "pallet identification sheet" or "bin identification sheet" (whichever applies) in each storage unit to aid in locating material.
- Notify DP&L representative in advance of scheduled deliveries to insure DP&L has a representation present to sign for materials received. (434-770-4675 or 434-489-6130)
- If Storage Containers are provided or empty Mobile Enclosed Storage Trailers, successful bidder must provide or have access to forklift equipment that is specifically designed for use outside in unpaved areas for off-loading and transporting materials to storage unit.
- Assigned representative from successful bidder shall be present at scheduled deliveries to inventory and monitor the off-loading and placement of materials in storage unit.
- Upon the request of DP&L, unopened boxes of material items that remain at the completion of the project shall be returned to vendor's stock and credit issued to the City of Danville.

Once the project is finished, the bidder will be notified to remove the containers or mobile storage trailer from the site.
